

Firm Overview

Parvin Asset Management

offers traditional and alternative investment management to address the specific needs and preferences of the individuals, families and institutions we serve. Our objective is to preserve capital and to provide higher risk-adjusted returns than the market. To accomplish this goal for fixed income, we concentrate on finding profitable, creditworthy companies trading at values which provide relatively attractive yields. We build portfolios with bonds that are typically spread among a focused number of equal-weighted positions. In general, we look for bond holdings that are characterized by well-capitalized balance sheets, steady cash flows, meaningful cash balances, and diversification across economic sectors.

Investment Strategy

Parvin Select Bonds is a fixed income strategy designed to generate reasonably stable income with relatively limited risk. Creditworthy bonds that are held until maturity represent a practical investment to preserve capital and provide income. By restricting selections to investment grade corporate bonds with short-term maturities, we emphasize safety as well as positive real returns. Select Bond portfolios are included with stock portfolios in balanced accounts to moderate risk and contribute additional yield toward income requirements.

Portfolio Highlights

Capital preservation, stable income and positive real returns are the primary objectives of this strategy

Focused portfolio diversified across economic sectors usually with a limited number of equally sized bond positions

Selection process concentrates on finding creditworthy, profitable, cash generating companies with sound financial positions and cash balances which should cover bond holdings as they mature

Low turnover leads to reduced trading expenses, keeping overall costs low

Managing risk is a critical aspect of any investment process. The preservation of capital is an important goal at Parvin, but there is no guarantee against loss since risk is inherent in every capital allocation decision.

All portfolios are held by independent custodians.

Portfolio Manager
J. Steven Smith, CFA®
